FOR IMMEDIATE RELEASE

STURM, RUGER & COMPANY, INC. REPORTS 2018

DILUTED EARNINGS OF \$2.88 PER SHARE

AND DECLARES DIVIDEND OF 28¢ PER SHARE

SOUTHPORT, CONNECTICUT, February 20, 2019--Sturm, Ruger & Company, Inc. (NYSE-RGR) announced today that for 2018 the Company reported net sales of \$495.6 million and diluted earnings of \$2.88 per share, compared with net sales of \$522.3 million and diluted earnings of \$2.91 per share in 2017.

For the fourth quarter of 2018, net sales were \$121.1 million and diluted earnings were \$0.69 per share. For the corresponding period in 2017, net sales were \$118.2 million and diluted earnings were \$0.59 per share.

The Company also announced today that its Board of Directors declared a dividend of 28¢ per share for the fourth quarter, for shareholders of record as of March 15, 2019, payable on March 29, 2019. This dividend varies every quarter because the Company pays a percentage of earnings rather than a fixed amount per share. This dividend is approximately 40% of net income.

Chief Executive Officer Christopher J. Killoy made the following observations related to the

Company's 2018 results:

- In 2018, net sales decreased 5% from 2017, reflecting an apparent reduction in overall industry demand as evidenced by the National Instant Criminal Background Check System ("NICS") background checks (as adjusted by the National Shooting Sports Foundation), which decreased 6% in the same period.

The estimated sell-through of the Company's products from the independent distributors to retailers remained consistent with the prior year due in part to continuing demand for some of the Company's products, particularly those that were introduced in December 2017.

- 2018 earnings per share of \$2.88, which were negatively impacted by the reduction in sales, benefited by the following:
 - The reduced effective tax rate in 2018, resulting from the Tax Cuts and Jobs Act of 2017, increased diluted earnings per share by 27¢.
 - The repurchase of 1.3 million shares of common stock in 2017 increased diluted earnings per share by 20¢.
- The comparison of earnings per share for 2018 to 2017 was impacted by 27¢ due to the change in the rates used to absorb overhead and direct labor expenses into inventory in each year:
 - In 2018, improved manufacturing efficiencies and favorable leveraging decreased the carrying cost of inventory \$2.0 million and resulted in a corresponding increase to cost of products sold, which reduced 2018 earnings by 8¢.
 - In 2017, decreased manufacturing efficiencies increased the carrying cost of inventory \$4.8 million and resulted in a corresponding decrease to cost of products sold, which increased 2017 earnings by 19¢.
- New products represented \$145.6 million or 30% of firearms sales in 2018, compared to \$137.8 million or 27% of firearms sales in 2017. New product sales include only major new products that were introduced in the past two years. In 2018, new products included the Pistol Caliber Carbine, the Precision Rimfire Rifle, the Mark IV pistol, the LCP II pistol, the Security-9 pistol, and the EC9s pistol.
- In 2018, the Company's finished goods inventory decreased 23,000 units and distributor inventories of the Company's products decreased 22,000. In the aggregate, total Company and distributor inventories decreased by 10% in 2018.
- Cash generated from operations during 2018 was \$119.8 million. At December 31, 2018, our cash and short-term investments totaled \$152.8 million. Our current ratio is 3.3 to 1 and we have no debt.

- In 2018, capital expenditures totaled \$10.5 million. We expect our 2019 capital expenditures to total approximately \$25 million.
- In 2018, the Company returned \$19.2 million to its shareholders through the payment of dividends.
- At December 31, 2018, stockholders' equity was \$264.2 million, which equates to a book value of \$15.14 per share, of which \$8.75 per share was cash and short-term investments.

Today, the Company filed its Annual Report on Form 10-K for 2018. The financial statements included in this Annual Report on Form 10-K are attached to this press release.

Non-GAAP Financial Measure

In an effort to provide investors with additional information regarding its results, the Company refers to various United States generally accepted accounting principles (“GAAP”) financial measures and one non-GAAP financial measure, EBITDA, which management believes provides useful information to investors. This non-GAAP measure may not be comparable to similarly titled measures being disclosed by other companies. In addition, the Company believes that the non-GAAP financial measure should be considered in addition to, and not in lieu of, GAAP financial measures. The Company believes that EBITDA is useful to understanding its operating results and the ongoing performance of its underlying business, as EBITDA provides information on the Company’s ability to meet its capital expenditure and working capital requirements, and is also an indicator of profitability. The Company believes that this reporting provides better transparency and comparability to its operating results. The Company uses both GAAP and non-GAAP financial measures to evaluate the Company’s financial performance.

Non-GAAP Reconciliation – EBITDA

EBITDA

(Unaudited, dollars in thousands)

<i>Year ended December 31,</i>	2018	2017
Net income	\$ 50,933	\$ 52,142
Income tax expense	17,781	25,504
Depreciation and amortization expense	31,972	34,264
Interest expense	330	152
Interest income	(211)	(27)
EBITDA	\$100,805	\$112,035

EBITDA is defined as earnings before interest, taxes, and depreciation and amortization. The Company calculates this by adding the amount of interest expense, income tax expense and depreciation and amortization expenses that have been deducted from net income back into net income, and subtracting the amount of interest income that was included in net income from net income to arrive at EBITDA. The Company’s EBITDA calculation also excludes any one-time non-cash, non-operating expense.
